

CALADIUM CARE INSTRUCTIONS

Prompt and proper care will extend the life of these lovely plants.

- Caladiums should be planted after the last frost.
- Most caladiums love bright shady areas (3-6 hours of sunlight) and some do tolerate full sun (6-8 hours of sunlight), be sure to plant according to the needs of each variety.
- Bulbs should be evenly spaced, based on the size of the bulbs.
- Caladiums should be kept moist – not too wet, not too dry. Don't let them sit in water.
- Caladiums are also great plants for potting.

With proper care, these lovely Caladium plants will provide weeks of enjoyment!
